Athletic Presentation

WISEBURN - DA VINCI

WDV Athletic Philosophy

WDV athletics is committed to providing a positive learning experience to all athletes involved with sports. This positive experience is not based on playing time or wins and losses. It is based on the belief of being part of a team, something bigger than the individual. This belief will be taught through learning how to work with others and what it means to be a responsible leader. Each student athlete will know that they are part of a program that cares about them and supports them.
